- Edge = average for Most Similar Forces 2003/04

### Footnotes:

1. The monitor diagram and bar charts are based upon quantitative measures only.
2. The bold figures shown for each domain are a combined score for the quantitative measures within each domain, scaled so that a force with a performance equal to the 2003/04 average of its most similar forces scores 100. The 2002/03 and 2003/04 scores are both scaled to the 2003/04 MSF average.
3. HMIC baseline assessment gradings are HMIC's judgement of force position at the end of 2003.
4. Offences brought to justice and drugs supply figures refer to calendar years 2002 and 2003.
